EVERGREEN NURSERY

VAL KATZENBERGER, Manager

FOSTERS, MICHIGAN

Evergreen Nursery,
January 11, 1925.

Dear Friends:—

The past season has been a busy one.

No doubt some shortcomings on our part have crept in, but thanks to your good nature and indulgence, we enjoyed your visits and thanks to your liberal patronage, the year just past has been a prosperous one.

I hope and wish that the New Year may prove as pleasant, that our intercourse be of mutual benefit, that our friendship grow firmer and never cease.

Wishing you a Happy and Prosperous New Year, I remain

Sincerely yours,
Val Katzenberger,
R. 2. Fosters, Mich.

—o—

TO THOSE WHO DON'T KNOW:—

My Nursery may be found **Two (2) miles north of Fosters**, on the east side of section thirty (30), Township of Bridgeport, one mile east of Sheridan Road and about seven (7) miles south from the Tower Clock.

POST OFFICE ADDRESS:—

As we are located on Rural Route No. 2, out of Fosters, all correspondence should be address that way.

TELEPHONE:—

Call Riverside 7181-F3.

POSTAGE, EXPRESS OR FREIGHT CHARGES must be paid by the purchaser, if plants are to be shipped that way.

Small packages don't cost much, but many of them amount to quite a sum in the course of a season. Include the amount with your remittance, if too much is sent, we will put in extra plants or return the overplus.

GUARANTEE: I guarantee to furnish live and healthy tree and plants, but cannot assume the responsibility that belongs to the purchaser. If plants and trees are not satisfactory when received, they must be returned and money paid for the same will be cheerfully refunded. Causes of failure are varied and many times beyond our observation and control.

CAUTION: On receiving the plants, examine the shipment. If they look good to you plant them at once or heel them in, in a moist, shady place. If not satisfactory for any reason, notify me, or return them, and if I cannot furnish what you want I will refund your money without a question.

EVERGREENS

AMERICAN ARBOR VITAE

American Arbor Vitae, Or Tree of Life, is an Evergreen for a great many uses. As a windbreak it has no superior; as a formal hedge it cannot be beat. It will stand pruning and shearing as no other plant. As a screen for outbuildings, fences and other unsightly objects, it is as good as the best. The demand for this has been so great that we are nearly cleaned up on large size trees.

| | |
|-----------------------------------------------|--------|
| Arbor Vitae, 3 feet, bushy plants, each | \$1.00 |
| Arbor Vitae, 2—2½ feet, each | .75 |
| Arbor Vitae, 1½—2 feet, each | .50 |

Pyramidal Arbor Vitae (Thuja Pyramidalis), The most compact and upright of the species. Foliage is large green and retains its color well.

| | |
|-----------------------------------------------------|--------|
| Pyramidalis A. V. specimen 2½—3 feet, each | \$3.00 |
| Pyramidalis A. V. specimen 18—24 inches, each | 2.00 |

Arbor Vitae (Hovey's Godden), Compact fan shaped. A golden color in the foliage. Specimen 15—18 inches

\$1.25

Arbor Vitae, Globosa, Forming a short, round, bushy tree, 15—18 in.

\$1.50

NORWAY SPRUCE

The Norway Spruce, Is a most popular tree for many situations. Tall with spreading branches and a most beautiful object against the landscape.

| | |
|-------------------------------|--------|
| Specimen 4—6 feet, each | \$2.00 |
| 2—3 feet, each | .75 |
| 18—20 inches, each | .50 |

Hemlock Spruce, The slender branches and the fine and ample foliage—together with the drooping habit make the Hemlock an object of interest.

| | |
|---------------------------------------------------------|--------|
| Specimen 2 feet broad and 2½ to 3 feet tall, each | \$2.00 |
| 18 inches to 2 feet, each | 1.50 |

Dwarf Mountain Pine, 10—12 inch spread, each

1.50

Irish Juniper, Upright, finely cut foliage, very formal and tense. 12—15 inches, each

\$1.00

Colorado Blue Spruce, We are nearly sold out of this popular tree and we will have to supply our customers from outside sources. Prices on application.

Colorado Green Spruce, We have a few of these left. 3—4 feet, each

\$5.00

| | |
|-----------------------|------|
| 2—2½ feet, each | 3.00 |
|-----------------------|------|

Deciduous Shade Trees

Norway Maple, Akin to our hard or sugar Maple, hardy, round topped with strong and spreading branches, broad deep green foliage, giving a tense deep shade and turning a golden yellow.

7—8 feet, each \$2.00

Soft or Silver Maple, A tree of rapid growth and somewhat irregular shape. Leaves are bright green above and silvery white beneath. The tree is very hardy and easy to transplant.

6—8 feet \$1.00
10—12 feet 2.50
12—14 feet 3.00

American White Elm, As a shade tree or for planting on the street or lawn it has no superior.

10—12 feet \$2.50

Ash Leaved Maple, Also called Box Elder. A native tree of rapid growth, is well adapted to a great variety of soils and locations.

6—8 feet \$1.00

Swedlery Maple, Very much like Norway Maple, with bright crimson foliage in early spring, which gradually changes to a purplish green later in the season.

6—8 feet \$2.00

American Sweet Chestnut, A large spreading tree, useful as a shade tree and valuable for its great crop of delicious fruit. Requires high and dry location.

8—10 feet \$2.00

Butternut, Also called white Walnut. A native, the nuts of which make delightful past-times. Nice straight well-rooted trees.

4—5 feet \$0.50

DOUBLE FLOWERING TREES

Prunus Triloba, Double flowering Plum 4—5 feet \$1.25

Bechtels Double-flowering Crab \$1.25

Prunus Pissardi, Purple leaved Plum. A small tree with deep, purple foliage.
3—4 feet \$1.00

Purple Peach, A small tree with blood red foliage. 3—4 feet, each \$1.00

WEEPING TREES

Campertown Elm, A small tree with curious spreading branches and tense, dark green foliage. 2 year head \$2.50

Weirs Cut-leaf Maple, This beautiful tree has a drooping habit and finely divided foliage. It is a rapid grower and an excellent lawn tree. 7—8 feet \$2.50

Catalpa Bungi, Top is grafted on 6—8 feet stems, forming a perfect Umbrella shaped head, very tense—foliage is large and light glossy green. Very effective for street, lawn or formal garden. 2 year heads, each \$2.50

Teas Weeping Mulberry, A most hardy and graceful tree. Forms a perfect head with long, slender branches drooping to the ground. It has beautiful foliage. Is safe and easy to transplant. Admirably adapted for large or small grounds. 6 feet, 2 year heads, each \$2.50

STATE DEPARTMENT OF AGRICULTURE CERTIFICATE OF NURSERY INSPECTION

No. 3044

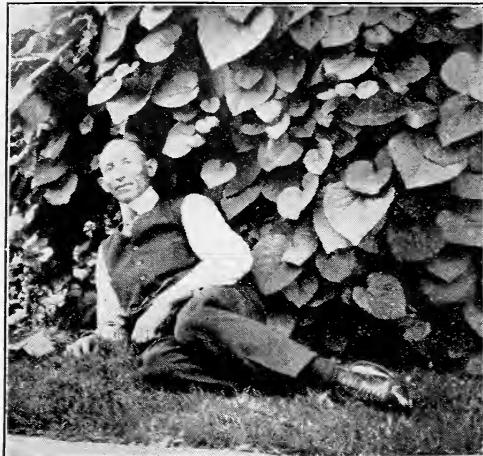

This is to Certify, that I have examined the nursery stock of Val Katzenberger, Fosters, Michigan, and find it apparently free from dangerous insects and dangerously contagious tree and plant diseases.

This certificate to be void after July 31, 1925.

Bureau of Foods and Standards,
L. R. TAFT, Chief Horticulturist.

Lansing, Mich., August 2, 1924.

Vines and Climbers

Aristolochia, Dutchman's Pipe,
Large, light green foliage, pipe-

shaped, yellowish brown flowers.
Each, \$1.00

Akebia Quintata, Purple flowers and ornamental fruit. Foliage almost evergreen.
Each \$0.50

Ampelopsis Quinquefolia, American Ivy. Fine for covering trellises, verandas
and fences. Each \$0.25

Ampelopsis Vitchti, Boston Ivy. Clings to brick and stone walls. Foliage is hand-
some in Summer, changing to crimson scarlet in autumn. Each \$0.50

Bignonia Trumpet Vine, Is a splendid climber, vigorous and hardy, with clusters
of large scarlet trumpet-shaped flowers in August and later, each \$0.50

Celastrus, Bittersweet, Handsome, glossy foliage and large clusters or orange
crimson fruit which if gathered and dried make beautiful winter decoration.
Each \$0.25

Halls Japan Honeysuckle, Flowers are an intermingling of white and yellow and
very fragrant. It will grow in partial shade as on the north side of buildings.
Each \$0.50

Polyconum, or Silver Lace Vine, This is a quick growing vine. The small foliage
is at all times fresh and shiny. It is covered in the late summer and fall with
large sprays of small silvery white flowers. Each \$0.50

Wistaria, A handsome vine to cover trellises or pergolas. Has drooping clusters of
pea shaped flowers. Each \$0.75

CLEMATIS

Clematis, Jackmani, A most popular vine and justly so. It commences to show its
large purple flowers early in the season and continues to cover the vine with
its masses of bloom. Each \$0.75

Clematis, Henri, The counterpart of the other, only the flowers are creamy
white. Each \$0.75

Clematis Paniculata, This Japan Clematis is a hardy vine to cover a trellis and
in turn to cover itself with masses of little star like flowers, completely hiding
the foliage at a season when other vines refuse to bloom. Each \$0.50

SPIREA VAN HOUTI

Flowering Shrubs

Althea, or Rose of Sharon, Fine growing, flowering shrubs, blooming in August and September, when few other plants are in blossom. They grow to a height of 7—10 feet and come in single and double form, in various colors.

| | |
|---------------------------|--------|
| Bush form, 2—3 feet | \$0.50 |
| Tree form, 4—5 feet | \$1.00 |

Flowering Almonds, Double blossoms like small roses. Almost the first shrub to blossom. Flowers are pink and white. 2—3, each \$0.75

Forsythea or Golden Bell, These are pretty shrubs with slender branches. Blossoms appear very early in the spring and before the leaves expand, blossoms are bright yellow. 3 feet

\$0.50

Fortuna, Is of upright growth. Intermediate with pendulous branches and bright green foliage. 3 feet, each \$0.50

Cydonia or Japan Quince, Foliage bright green and glossy. Flowers are scarlet red or rose and appear very early before the leaves. Each \$0.25

Hydrangea Arborescens or Hills of Snow and the other "Hydrangea Paniculata Grandiflora," are hardy shrubs of free flowering habits. They bloom from mid-summer until fall. Flowers are white, if cut soon after they are open and dried can be used for winter decoration. In landscape work these shrubs are indispensable. H. Arborescens

\$0.50

H. Pan Grandiflora

\$0.75

Tree Form, each

\$0.75

Bush Honeysuckle or Lonicera

Fragrantissima, Flowers appear very early. Each \$0.50

Bell Albida, White flowers with red fruit. Each \$0.50

Red Tartarican, Light Red flowers. Each \$0.50

Snowberry, A fine shrub with pink blossoms and white showy fruits as large as cherries, which persist way into the winter. Each \$0.50

Twelve for \$5.00

Waxberry or Indian Currant, A hardy shrub with small flowers, but showy red fruits line the upper third of the drooping branches which hang on until mid-winter. Each \$0.35

Philadelphus Grandiflorus

Philadelphus or Mock Orange, A class of old but popular shrubs. The blossoms are large and simply cover the bush. The foliage at all times bright, the plant hardy and very satisfactory.
Each \$0.50

Philadelphus Grandiflorus, If left to itself will grow 20 feet tall and will look young at 40.
Each \$0.50

Philadelphus, Coronarius, of the same general habits, but growing less tall, and is covered in June with masses of white blossoms with golden yellow stamens and delightfully scented.
Each \$0.50
For 12 \$5.50

Golden Mock Orange or Syringa Golden, This shrub grows very bushy, but less tall than the others and sports Golden Yellow foliage in contrast with the other kinds. Each \$0.50

Philadelphus Lemoine, Grows very upright with long, narrow foliage and masses of small flowers in June. Each \$0.50
For Twelve \$5.00

SPIREA

Spiraea Van Houtti, The grandest of all Spireas. Is an ornament for the lawn at any season, but when in bloom it is a complete fountain of flowers, the foliage hardly showing. Perfectly hardy and will grow in any position except shade.
3—4 feet, each \$0.50
12 for \$5.00

Spiraea, Anthony Waterer, a charming dwarf shrub, 2 feet high with broad heads of small pink flowers that bloom continuously from June until fall. Each \$0.35

Spiraea Froebelli, Dwarf and similar, but somewhat taller than Anthony Waterer, with brighter and broader foliage. Blooms from July until September.
Each \$0.50
For Twelve \$5.50

Spiraea Opulifolia, Golden Leaf Spirea. A good shrub on its own account, but is planted much in contrast with other shrubbery. The foliage at all times is bright yellow, the blossoms white, the seed capsules red, turning to brown in the fall, make this shrub very popular. Each \$0.50
For 12 \$5.50

Weigelia, Beautiful, Shrubs that bloom in May and June hiding the foliage with their masses of blossoms.

Weigelia, "Rosea," Rose-pink, Trumpets or Bells.

Weigelia, "Eva Rothke," Flowers are deep carmine red.

Weigelias, each \$0.50
For 12 \$5.50

Ligustrum or Privet, This class of shrubs has many and varied uses, but is mostly planted for Hedging for which purpose they are unsurpassed.

California Privet, Has rich, glossy foliage which is nearly Evergreen. Some season it retains the old foliage until the new has started to come out. It is a strong grower and requires several shearings in a season. Each \$0.15
For 12 \$1.50
For 100 10.00

Armour River Privet, Is quite hardy, being a native of Northern China. It will be suitable anywhere for planting. Each \$0.25
For 12 \$2.00

For 12 \$5.00

SNOWBALL

Japan Snowball AND Common Snowball

Snowball, Viburnum Steriles, The common Snowball is a well known shrub and a general favorite on account of its large clusters of flowers in June. Very handsome and desirable. Should be in every collection.
2—3 feet, each \$0.75

Viburnum Tomentosum, This Japan Snowball is a rare and beautiful species, surpassing the common Snowball in many respects, as its habit is much better, its flowers whiter and more delicate. 2—3 feet, each \$1.00

Riegels Privet, Is a variety of Iboda and in the so-called flowering Privet. The branches grow horizontal and bear small, white flowers on Lilac-like bunches, followed by black berries that persist a long time, even on to spring. Riegels Privet will grow quite well in shady places. Each \$0.50
For 12 \$5.00

Barberry Thunbergi, Dwarf growing, uniformly bushy and rounded in form. Will stand pruning well for a formal hedge. Numerous thorns on its branches and so forms a barrier for lawn protection or dividing lines. Its rich foliage turns to gold and purple in autumn. We have ample stock of this plant in the best of age and pink of condition for transplanting at a price you can not afford to send elsewhere for your wants. 3 year old plants, 2 feet high and well branched
Each \$0.25
Per dozen 2.50
For 50 8.00
For 100 15.00

PLANTING DIRECTIONS

First—Dig deep and wide; keep the good top soil on one side and the poor sub-soil on the other.

Second—Fill in the hole enough good soil, that if the plant is set thereon, the crown of the roots is slightly below the level of the ground, according to the size of the plant.

Third—Pack good soil around and under the roots—filling all empty spaces.

Fourth—If the soil be dry, use water freely to moisten and further help pack the soil.

Fifth—Fill in more soil and tamp.

Sixth—Fill up with loose soil and level off.

It is needless to say that all mutilated roots should have been trimmed and straggling ones cut back, and the tops cut to balance the proportion of the tops to the roots.

Aside from a good watering in dry weather—frequent loosening of the surface with the hoe will be all that is necessary.

ELLEN PAULSON

Polyantha or Baby Roses

Erna Teshendorf, One of the most desirable of the Baby Roses, as a bedding plant. The brilliant rosy pink, semi-double flowers are produced in profuse quantities all summer. Each \$0.50
Per dozen \$5.50

Grete Kluis, An extremely desirable variety. A beautiful shade of deep carmine pink that changes to carmine red. Very free flowering over a long season.
Each \$0.50
Per dozen \$5.50

Ellen Paulson, A very free and vigorous type, with large, full and sweet scented flowers of dark pink splashed with crimson. Each \$0.50
Per dozen \$5.50

Roses, Hybrids, Perpetuals

American Beauty, The best known and most popular rose. Deep pink, of good form, large with exquisite fragrance.

Paul Neyron, Of large size, blooming all summer and more so in the cool month of September. Deep pink with thornless branches. Each \$0.50

Gruss on Teplitz, Velvety crimson, blooming freely the whole season. Each ...\$0.50

Eugene Fuerst, Color deep red shaded crimson. A profuse bloomer. A most charming rose. Each \$0.50

Frau Carl Druschke, Snow-white, long pointed buds, a large, full flower. Is a free and constant bloomer. Each \$0.50

Lon Angeles, Said to be one of the finest Roses ever introduced, with vigorous growth producing long stem flowers. Flame pink toned with coral and shaded gold at the base. The buds are long and pointed. Each \$1.00

Climbing Roses and Ramblers

| | | |
|-----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| American Pillar, | Flowers 3—4 inches across, of pleasing apple-blossom pink with a large cluster of yellow stamens, followed by clusters of ornamental fruits. | |
| Each | | \$0.50 |
| Dorothea Perkins, | A beautiful shell-pink, foliage finer and smoother than Crimson Rambler. A rampant grower. Trails its masses of clusters over varandas more than any other old variety. Each | \$0.50 |
| For 12 | | \$5.00 |
| White Dorothea Perkins, | A counterpart to pink Dorothea, except in color, which is pure white. Each | \$0.50 |
| Per dozen | | \$5.50 |
| Climbing Baby Rambler, | A very strong grower with the same style of foliage and color as the well known bush Baby Rambler. Each | \$0.50 |
| Per dozen | | \$5.50 |
| Excelsa or Red Dorothea Perkins, | A blood red cluster Rose. It has good, clean foliage and will displace Crimson Rambler because of its rampant and healthy growth. Each | \$0.50 |
| Per dozen | | \$5.00 |
| Climbing American Beauty, | The climbing form of that popular bush variety has strong, healthy foliage and good climbing habits. It blooms with the same freedom as the bush variety. The demand for this great Rose is larger than the supply. Each | \$0.75 |
| Pauls Scarlet Climber, | Very large, semi-double flowers, crimson scarlet in great abundance. Said to remain in bloom longer than most others. Each | \$0.75 |
| Silver Moon, | Pure white, semi-double flowers with thick clusters of yellow stamens. Each | \$0.75 |
| Source de 'Or, | An unusually large Rose for its class. Golden yellow, shading to cream and white. A moderate grower with abundant glossy foliage. Each | \$0.50 |

Dahlias

It has been said of the Peonea, to be the Queen of the Garden in Spring, likewise we look to the Dahlia in the Fall, and not without reason. The freedom of bloom, their prodigal sizes, their gorgeous colors and beautiful hues make this the flower of all flowers.

Show Dahlias

- A. D. Livonia,** A warm rose pink, medium size, but a most perfect flower.
- Cuban Giant,** Very large. 6—7 inches across. Glowing crimson shaded maroon. A tall, strong grower.
- Doreathea Peacock,** A large perfect flower of sea-shell pink. An early free bloomer.
- Grand Duke Alexis,** A very large and full flower. White tinged with a trace of lavender.
- Maude Adams,** An early, free blooming sort with white suffused lavender at center.
- Yellow Duke,** A long stemmed, free bloomisg sort of primrose yellow.

Cactus Dahlias

This class of Dahlias is known by their long, narrow, tubular twisted petals and loved by all for their lovely deep colors and beautiful shadings.

Brunhilde, Violet purple with wide, recurved petals.

Countess of Lonsdale. An old but still popular variety. Free blooming and long lasting. Large and perfect. Color is amber and salmon pink.

Goldes Gate, Great, full flowers, 8—9 inches across, an early, free bloomer. A rich, golden yellow, shaded fawn.

Krimhilde, Graduating rose-pink, the center petals changing to white giving the open flower a pink and white effect. This flower must be seen to be fully appreciated.

Lavine, A beautiful formed flower of large size. Pure white with a trace of blush at the center.

Strahlenkrone, A large and full flower, brilliant cardinal red with purple center and rose reflex.

Zulu, Deep velvety purple, nearly black. A free bloomer. A large blossom, great in contrast and beauty.

Decorative Dahlias

This class of Dahlias is very free bloomers, fine for cut flowers or landscape work. The flowers are usually large, open faced with broad flat petals.

Delicia, Flowers large, well formed, with white ground, suffused or shaded pink.

Dousan, Said to be the largest Dahlia grown. Indeed, I have yet to see one to measure up to it. A lovely shade of Orange, long, broad petals, showing sometimes an open center.

Dewey, A perfect ball. American Beauty shaded maroon.

Eurica. Flowers medium to large, well formed, nearly as round as Dewey. Yellow shaded salmon.

Sylvia, Flowers are very large and full to the center, white in the center, shaded soft pink, overlaid with a tinge of Lavender towards the edges.

Pompon Dahlias

This class of Dahlias is of the show type, perfect in the shape and make-up, small in size, free and constant bloomers.

Catherine, Golden yellow, perfectly double.

Little Beauty, A miniature, Livonia, as round as a ball, pure pink, petals fully quilled. Indeed, a little Beauty.

Prince Charming, Cream tipped purple.

Snowclad, A wonderful free bloomer, pure white with a faint trace of Lavender in the center.

| | |
|------------------------------------|--------|
| Dahlias ready sprouted, each | \$0.25 |
| Ten or more, each | .15 |

Hardy Perennials

Campanula, Canterbury Bells, An old favorite, large bell shaped flowers in mixed colors, but mostly blue. Each \$0.15
Four \$0.50

Delphinium, Larkspur, A hardy perennial with long, showy spikes of lovely shades of blue in early summer. We have them in mixed shades Each \$0.15
For four 0.50

Digitalis or Fox Glove, Handsome plants that show large spikes of very ornamental flowers in spring and early summer.
Each \$0.15
For four 0.50

Achillea, the Pearl, A little known hardy garden flower. Blooms all summer and fall. Small pure white double blooms in loose bunches. fine for cutting.
Each \$0.15

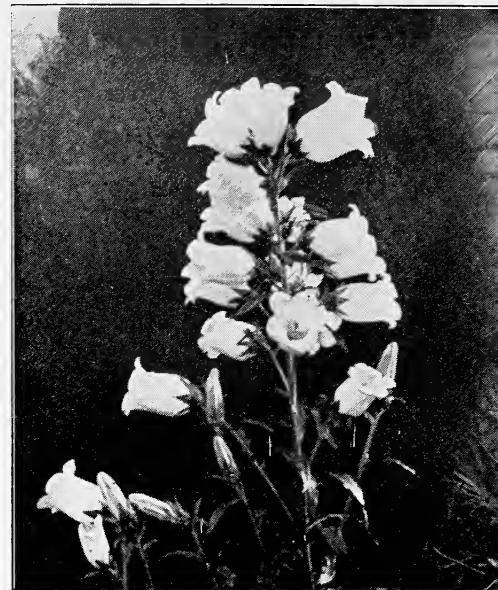

Chrysanthemum, The hardy varieties which bloom in the open ground in fall, while not so large as the greenhouse species, they bloom in clusters and give display when other flowers are not in evidence. We have them in white, pink and yellow. Each \$0.15

Coriopsis, A hardy plant with large, showy bright yellow flowers on long stems. A good cut-flower. The more one cuts, the more will grow. Will bloom all summer. Each \$0.015
For four \$0.50

Gailardia or Blanket Flower, Showy, hardy plants. They bloom from early spring until fall, on stems 2 feet high. The flowers are dark red and brown in the center, while the petals are marked with rings of crimson and orange.
Each \$0.15
For four 0.50

Oriental Poppies, Large flaming orange scarlet flowers in great profusion. Flowers do not last a long time, but the foliage is highly ornamental. Each ...\$0.15
For six 0.50

Shasta Daisies, Pure white flowers four inches across on long stems and bloom almost continually all summer. Divided clumps \$0.25

Perennial Phlox

Bridesmaid, White with large crimson center.

Champ Elysee, Bright rose magenta.

Independence, Pure white, of low growing habit.

La Mahdi, Deep velvety purple.

Rheinstrom, A lively shade of rose pink. Very large.

R. P. Struthers, Cherry red suffused salmon.

| | |
|-------------|--------|
| Phlox, each | \$0.25 |
| 5 for | 1.00 |

Yucca, Adam's Needle, A showy Evergreen plant with flower stem 4—5 feet high. Flowers are bell shaped, creamy white. Each \$0.25

Spirea Palmetta, The 4—5 feet flower stems are topped with plumes 6—7 inches long of fleecy pink flowers. Each \$0.25

Peoneas

| | |
|-----------------------------------------------------------------------------------------------------------|--------|
| Officinalis Rubra , Early. Dark red. Division 3—5 eyes | \$0.75 |
| Delachy , Dark red. Late. 3—5 eyes | 0.75 |
| Festiva Maxima , Pure white with faint trace of crimson on center petals. Rose type. Each | 0.75 |
| Felix Crause , Flame red, division 3—5 eyes | 0.75 |
| Coronne de Or , Late white. Large, round flowers of rose type. Division 3—5 eyes, each | 0.75 |
| Several shades of Pink, divisions 3—5 eyes, each | 0.50 |

Gladioli

| | |
|------------------------------------------|--------------------------------------------------|
| Mountain Rose , Soft Pink | Mrs. Frank Pendleton , A late pink beauty |
| Independence , Rosy pink | Baron Hulot , Indigo blue |
| Pink Beauty , Ruby throat, early. | Schwaben , Light yellow |
| Halley , Early, Salmon pink | America , Flesh pink |
| Evelyne Kirtland , Shell pink | Panama , Large. Deep pink |
| Mrs. Francis King , Light Scarlet | Princepine , Scarlet with white blotches |
| The Above Six, per doz. | Hereda , Pure mauve. |
| | The above 7 varieties, per dozen |
| | \$1.00 |

Creeping Phlox or Moss Pink, Beautiful plants for ground cover. Low spreading branches and narrow moss-like foliage. In early spring it is covered with a wealth of little blossoms, lavender pink.
Large clumps, each

\$0.25

Blue Myrtle, Evergreen spreading. Is used for covering graves. per doz. 0.50

English Violets, Double flowers, deliciously sweet. Large clumps, each 0.25

Bleeding Heart, Divisions, each 0.50

Lemon Lilie, Each 0.15

Lily of the Valley, For dozen Pips 0.25

Fruit Trees

—0—

APPLES

Yellow Transparent, An early apple of quality, flesh white, tender, juicy and good. It bears young, is productive and profitable.

Duchess of Oldenburgh, A large, red streaked, yellow apple. Juicy, subacid and productive. The best and most popular summer apple.

Red Astrachan, Medium size, beautiful deep crimson. A favorite eating and cooking apple. Season August and September.

Wealthy, A medium, round, deep red fruit. Handsome and of good quality. Season September to November.

Fameuse or Snow. Too well known to need discription.

Wagner, Medium size, deep red in the sun. Quality good. One of the earliest bearers, often setting fruit in the Nursery row.

Delicious, This apple has been gaining popular favor from its introduction. Fruit is large, nearly covered with bright red, flesh is fine grained, crisp and juicy with an aroma all its own and unsurpassed in quality.

North Western Greening, Fruit a rich yellow and good size. A long keeper.

Northern Spy, The apple that is known by all, liked by young and old alike. Is planted by everyone. Somewhat tardy in coming into bearing.

DWARF APPLES

Dwarf Apples, Come into bearing quite early, require little space and the fruit is in every way just as satisfactory as from standard trees.

Transparent, Duchess, Wagner and Wealthy are some of the varieties I have in stock.

| | |
|---------------------------------------------------|--------|
| Apple trees, two years old, 5--7 feet, each | \$0.75 |
|---------------------------------------------------|--------|

PEARS

Anjou, The best late and early winter pear. Rich, buttery, melting.

Bartlett, The pear all others are judged by. A great bearer and very popular.

Clapp's Favorite, Large, juicy and highly flavored. Yellow with dull red on the sunny side. Ripens in August or first of September.

Sheldon, Large, round and russet in appearance. Sweet, juicy and good to the taste. Highly satisfactory in every way.

Kieffer, Large and handsome, with long keeping and shipping qualities. This can not be compared with Bartlett as to taste and flavor, but is nevertheless a good canning pear.

| | |
|-----------------------------|--------|
| Pear trees 6--7, each | \$1.00 |
|-----------------------------|--------|

Plums and Cherries

PLUMS

| | |
|---------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Lombard , | Violet red, juicy and good. Exceedingly productive and hardy. |
| Burbank , | Productive to a fault, bears quite young, fruit above medium size. Quality fine and sweet when fully ripe. A vigorous grower with spreading habit. |
| Yellow Egg , | Very large, egg shaped and excellent for cooking. |
| Shipper's Pride , | Large, dark purple, juicy and sweet. |
| German Prune , | Long, medium size, small pit from which the flesh separates freely. Its sweet, rich flavor makes it valuable for canning. |
| Plum and Prune trees, 2 years old, 6—7 feet, each | \$1.00 |

CHERRIES

| | |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Early Richmond , | Medium, dark red, rich acid, sprightly and good. The best. Ripens the first of July. |
| Large, Late Montmorency , | Large, red solid flesh, rich and good. Ripens 10 days to two weeks after early Richmond. |
| Ostheimer , | Perfectly hardy, late in blooming. Heart shape, nearly black when ripe. Should not be planted alone. Immensely productive with a suitable companion. |
| Black Tartarian , | Glossy black, flesh solid and sweet, fine for the birds and entirely harmless to the children. |
| Cherry trees, two years, 5—7 feet, each | \$1.00 |

STRAWBERRIES

| | |
|--------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| Senator Dunlap and Dr. Burril , | Crop failed. |
| Premier , | Said to be the best and most productive early berry. |
| Gibson , | A fine table berry, large and productive. |
| Glen Mary , | Improved by selection. Very large and of the best quality. |
| Brandywine , | Very popular with growers who can give it good soil and better care. 10 days later than the others. |
| Prices of Plants —Per hundred | \$.75 |
| Per thousand | 6.00 |
| Progressive Everbearing , Per dozen | \$.50 |
| Per hundred | 2.00 |

RASPBERRIES

| | | |
|----------------------------------------|-----------------|--------|

Grapes

Grapes are a most profitable crop and may be grown practically anywhere. A deep, gravelly soil or even a sandy ridge will produce the best of fruit if given a good start. But it stands to reason that with good soil and suitable cultivation, pruning and spraying, fine fruit may be the result.

Grapes may be grown on a fence or trellis against a building with a sunny exposure. A few vines will furnish fruit for a large family. The choice of varieties is great so that the taste of all may be satisfied.

BLUE GRAPES

Concord, The standard grape by which all others are judged. It is a hardy vine, productive, but late in ripening.

Worden, Berries and bunches are larger than Concord, sweet and tender. About a week earlier than Concord. Fine for family use and nearby markets. Not so well suited for long shipping.

Moores Early, A fine early grape for family use or nearby market. Ripens fully 2 weeks earlier than Concord. Flavor is sweet and delicious.

Campbells Early, Berries large, bunches long and shouldered. Sweet, juicy and good. Seeds few and small, skin firm, which insures the keeping quality of this grape.

RED GRAPES

Agawam, Berry large, sweet and sprightly aromatic. Ripens with Concord and keeps much longer. It requires severe pruning as it is a strong grower.

Lucille, Bunches and berries are large and very productive. Flavor is delicious. Ripe ahead of Concord.

Delaware, Bunches and berries are small, but compactly set. Color is a beautiful pink, flavor sweet and delicious. Ripens ahead of Concord.

WHITE GRAPES

Niagara, Ripens with Concord. Bunches and berries are large. Color greenish white, flavor spicy but delicious.

Moores Diamond, A leading white Grape for home use or market. Ripens 10 days ahead of Niagara. Flavor and quality excellent.

Green Mountain, An extra early grape from Vermont. Vine is vigorous and hardy. Bunch loose but long, berry medium size, quality fine.

PRICES OF GRAPE-VINES
